

# Video 3: Why? [Transcript]

*by Wes Penre and Ariel Glad*

Why is it necessary to learn all this information if the solution to escaping this trap is to simply find a hole in the frequency grid, which keeps us held prisoner here, upon death?

\*

As a human soul group, we have become so fragmented by emotional trauma that we are no longer functional whole and capable individual beings, and even less so as a collective soul group. Upon death, and entering the closest realm of existence, the Between Lives Area (BLA), what might we encounter and are we strong enough as souls to resist the pull of whatever tempts us to follow into the false light and deceptive machinations of the AIF?

\*

You may say, "Yes!" However, consider that your soul will enter the BLA in the same condition it leaves this physical experience. How confident are you in your day to day life? Are you acting consciously most of the time or are you *reacting* to your environment and the people you encounter? Do you know the difference? Are you authentic, not only with the people in your life but also with yourself? Can you be sure that your soul is whole and healthy enough to act according to your intentions, or will you leave it up to the chance that you might *react* due to the past trauma and programming you have experienced in this life? It has been our observation and experience that no one is free from this manipulated human dynamic that has depleted our life energy, fragmented our soul, and caused us to live our lives in a painful cycle of abuse from which the AIF is not only feeding upon to sustain itself, but is using to keep this trap system sustained, as well. Do you want to keep contributing to it? We encourage you to disengage from this evil food chain that seeks to destroy our souls in its insatiable appetite for life energy.

\*

The Experiment mentioned in the WPP is not over. Far from it! It was hijacked and made harder than it was originally intended, but it is

ongoing, and we still have an opportunity to fulfill the growth and expansion for which we agreed to participate. You may think that since you have learned about the Experiment your version of truth gives you the knowledge to sit back, take it easy, and wait for your exit from this prison. On the contrary, now that you have learned why you are here, it is time to get busy and start doing what you came here to do. Why would you not want to fulfill your part on determining whether this Experiment will be a success or a failure? All that is required is a willingness to expand your consciousness and become the Divine creator being you were intended to be. The work has only just begun.

\*

We will show you what we have uncovered through research and our own individual experiences on how to disengage from this toxic relationship dynamic we have with the AIF and what happens when you do. It begins with looking at the relationships closest to you and learning about what narcissism really is. We believe that we have enough evidence to prove, at least to ourselves, that narcissism is an intentional "virus" injected into the human soul group to facilitate the harvesting of human soul energy. We have all heard that the AIF "feed" upon us, but how? We believe we are figuring out how it works, and there appears to be a way to stop it and keep your soul energy where it belongs; within you. It seems there is no one on Earth that is unaffected in this process. However, the AIF is depleting their own food supply and running out of energy due to the rampant and vicious spreading of the narcissistic human condition. A new system will be implemented to remedy this problem, and the sooner we learn how to disengage and stop feeding them using our own choice of Freewill and determination the better. It's not easy, and it's not meant to be...but, it's so worth it when you begin to see who you truly are and what you can achieve when you begin to use the energy that is inherently and Divinely yours to create a beautiful life here full of conscious expansion and growth as the Experiment was originally intended.
